

Noel D. Jones is retired as Research Advisor (Scientific Director) and Group Leader of Macromolecular Structure Research at Eli Lilly and Company, where he spent twenty-seven years. Subsequently he was for three years Vice President of Drug Design at Molecular Structure Corporation. He has extensive experience in macromolecular crystallography research, drug design and research management. His special expertise is in the development of automated instrumentation for protein crystallization and in the development of synchrotron beam lines for diffraction studies. Dr. Jones has frequently served on NIH, NASA and DOE review panels for evaluation of research programs. He served on the NRC Task Group for Evaluation of NASA's Biotechnology Facility for the International Space Station, 1999-2000.
